

HUGH LIQUOR STILL IS SMASHED

2 MEN TAKEN BY SHERIFF IN RAID

A liquor raid, claimed to be one of the largest in the state of Texas for sometime, was made by Sheriff Max Kennedy and Constable B. F. Bailey of Cameron, Wednesday morning at 11 o'clock.

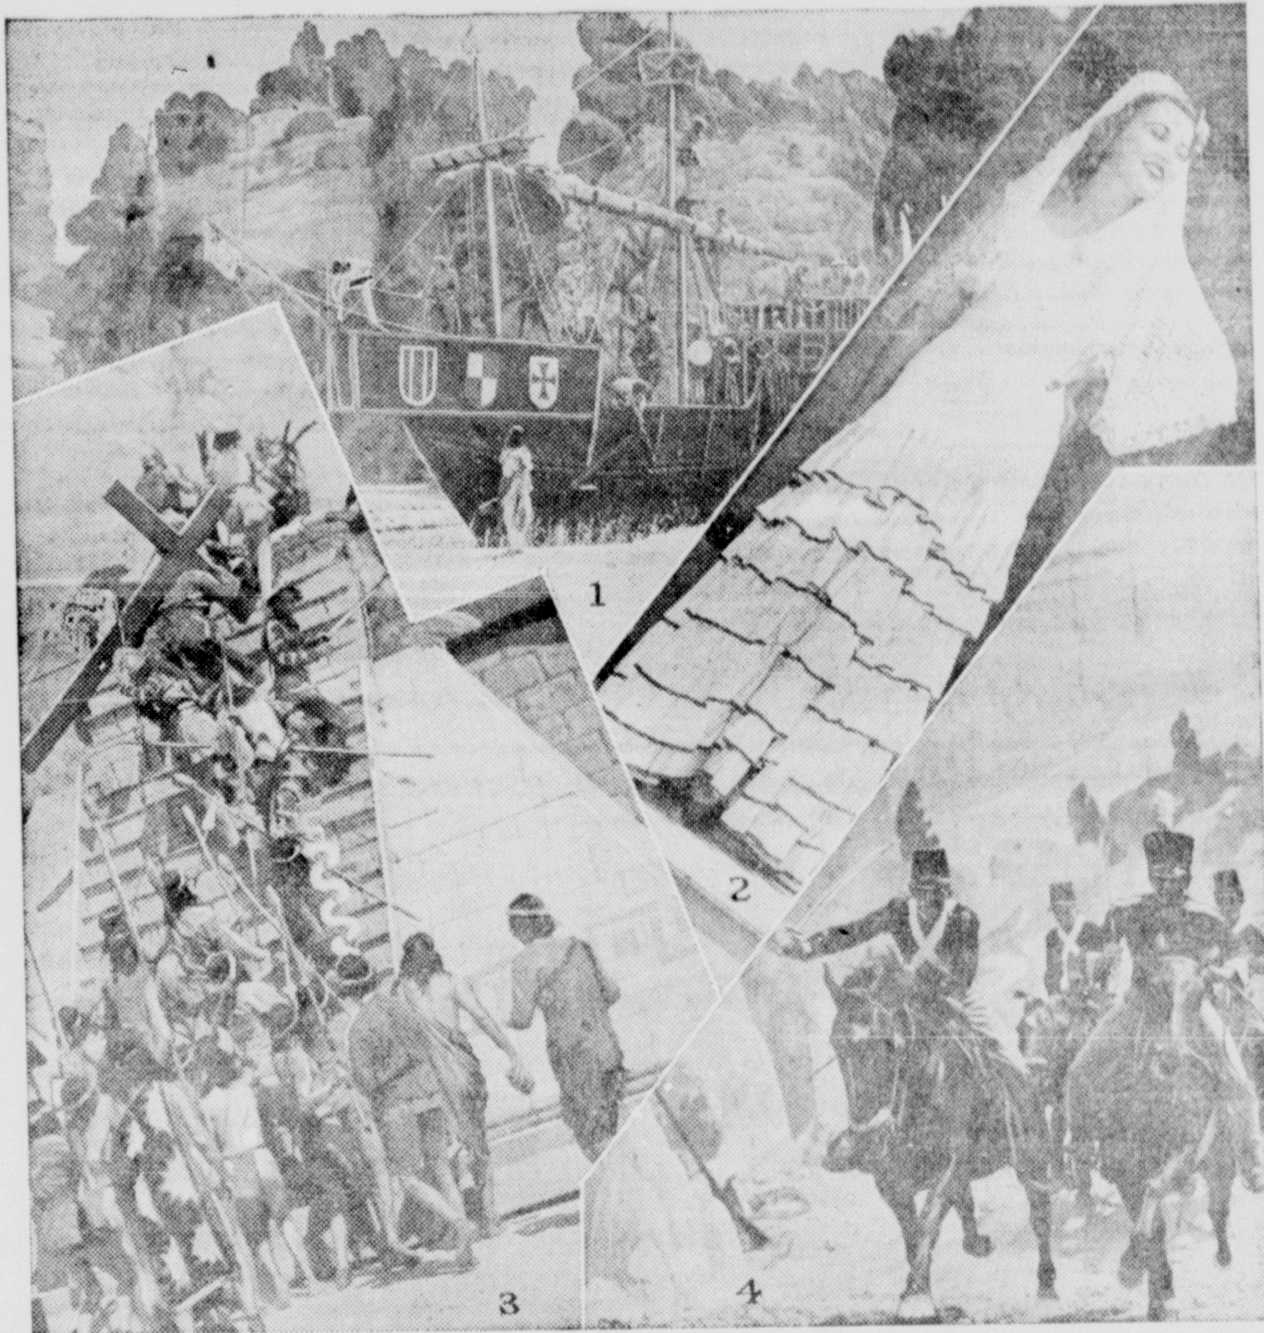

Jim Kimbel and Mike Treadwell were arrested in a deserted farm house five and one half miles southwest of Cameron as they were in the act of starting their day's work in making liquor, it was said by officers. Twenty-four 55 gallon barrels of mash, a solid copper still in operation, 38 gallons of corn whisky, 200 pounds of sugar and a 10 gallon crock were confiscated.

Kimbel and Treadwell are in jail in default of bail for \$1,000 each. Each is charged with unlawful manufacture of spirituous liquor and unlawful spirituous liquor for the purpose of sale.

Both men are residents of Rogers. The farm on which the still was located is the property of a negro woman in Cameron. Treadwell was in the mercantile store in Rogers several years ago when Sheriff Bigham and deputies shot and killed P. Morgan of Cameron. In the store and arrested at the time was Steve Lewis, of Cameron.

Sheriff Kennedy said late Wednesday that with the aid of his deputy they poured out 1200 gallons of mash and brought to storage here around 40 gallons of whisky.

The Cavalcade of the Americas, a great historical spectacle depicting the struggle for liberty on the part of the peoples of the nations of the Western Hemisphere, is a free attraction at the Pan American Exposition in Dallas. The production cost \$500,000 and is on the largest stage in the world. Scenes from Cavalcade, shown above, are: (1) The landing of Christopher Columbus; (2) Geraldine Robertson, star of Cavalcade; (3) Cortez captures Mexico City; (4) Bolivar's cavalry charges the Spaniards.

"Our Town"

J. B. WHITE

For those who have been unable to take a vacation during the summer, the Baltimore Sun suggests that it is not yet too late to have all the thrills of a summer resort right at home. Here is how it may be done:

Move into the smallest bedroom in your house; if possible one immediately over the kitchen.

If your bed is soft and downy, put a couple of bricks in it.

Dig a hole in the garden, get into it and cover yourself up to the neck.

When you get tired of this diversion, wash yourself off with the garden hose.

Don't have any clothes washed for two weeks.

Sit on a rough board in the hot sun and hold a baited fishing line in your hand.

If you wish to take a quiet nap in the afternoon, put a radio next to your bed and turn it on full blast.

In the evening, remove the screens from the bedroom windows so that the mosquitoes can get in to you.

Go up to the roof and expose yourself to the sun until you are nicely burned. Then take whatever exercises will make you stiff and sore.

When you have wearied of all this and wish to return to a normal life, send yourself a bill for \$20 to \$25 a week and don't forget to give a nice fat tip to the cook.

In spite of severe handicaps caused by increased operating costs and threats of further adverse legislation, the railroads of the United States are going forward courageously in a determination to meet the country's transportation needs.

Last week an announcement which illustrates this fact was made concerning new equipment installed and ordered during the first seven months of this year, representing the largest investment for equipment that has been made during any similar period since 1930.

Included in the additions by class one railroads for the seven months are 41,630 new freight cars installed and 38,089 ordered for future delivery; 198 new steam locomotives and 25 new electric and Diesel locomotives installed, and 283 steam and 29 electric and Diesels ordered.

For the corresponding seven months of 1935 only 2,272 new freight cars and 27 new steam locomotives were placed in service, although that year saw the addition of 99 electric locomotives.

It is encouraging to note that the nation's railroads, as well as public utilities, manufacturers and other leaders in our industrial and business life, are going right ahead with the installation of increased facilities, even in the face of higher labor costs, increased taxation, and harassment by a multiplicity of governmental regulatory agencies.

Life may begin at forty, but for some people with neglected teeth it is an age of disease and poor health, says a current bulletin by the Dental Institute of America, which reminds us that youthful bodies have great resistance to physical ailments, but by forty there is frequently little reserve to draw upon against long established infection.

Much of the ill health of middle age may be traced to poor dental care in early life, a leading medical scientist recently declared.

Saving the teeth means both re-

Cameron Has Shared Spotlight of Texas Political Campaigns

Here is an interesting manuscript taken from the files of The Herald. It was written on the occasion of an address here by the late Senator Joseph Weldon Bailey in 1922 when he was a candidate for governor. So far as the records show it was never published, locally, but put on the wire as a colorstroy for the event of Senator Bailey's visit here.

It was found in an old file and is now published for its general interest as well as for the express benefit of those who still live and remember those stirring days.

Senator Bailey was defeated by

Pat M. Neff for governor. It was his last campaign in Texas.

Cameron Shares Spotlight Cameron has played a big part in the political history of Texas.

Many of the outstanding campaigns of history were begun in Cameron, and in this city has been written some of the most thrilling and momentous chapters of Texas politics with debates and utterances that distinguish the careers of more than a dozen of her most celebrated sons and statesmen.

It was in Cameron that General

New Deal Economics Made This Possible; We Were Paid Not To Raise Hogs

Washington, August 21.—The rest of the world sold the United States farm products valued at \$1,539,239,000 in the 1937 fiscal year, the Bureau of Agricultural Economics reported today.

This was an increase of nearly \$400,000,000 over the previous 12 months when the figure was \$1,140,727,000.

A similar compilation last week of farm exports for the same period showed a decline of about \$30,000,000 for the last year to a total of \$732,839,000.

Imports of farm products classed as competitive with those produced in this country were valued at \$782,662,000 for the period ending June 30, 1937, compared with \$578,961,000 for 1935-36. These included meats, grains, sugar, wool, cotton and similar products.

The value of non-competitive agricultural imports, such as coffee tea, bananas, spices and rubber was \$662,226,000 compared with \$493,327,000 a year earlier.

The bureau said many of the imports gains "may be attributed almost entirely to the unusual droughts in the United States in 1934 and 1935 which reduced domestic supplies and raised prices."

Congress has not finally adjourned as this is being written but there remains no doubt that it will adjourn sine die by mid-night. We have within the last few hours seen just how important the Southern Leadership of the House is to our people. On three separate occasions this week it has seemed likely that the majority of the House would trample on the rights of the Southern Farmer. The first instance was the failure of the appropriation committee to include any money in the deficiency bill to start the tenancy or farm home ownership program. After having accepted a tremendous reduction in order to meet the President's wishes in regard to economy we were told by the appropriation committee that we would not have enough money to do much with any way and that they had just decided not to let us start. A number of Southern representatives protested. I made a speech against this injustice and finally after a masterful argument by Hon. Marvin Jones of Texas the items of \$10,000,000 for retirement of sub-marginal land and \$10,000,000 for loans to tenant farmers were included.

Yesterday we had up a Senate Resolution simply pledging Congress to make general farm legislation first order of business when we reconvene (whether that be in January or earlier at a called Session.) This resolution was but a part of the program agreed on in order to induce the President to make Cotton loans immediately available. The resolution was bitterly opposed by many of the Representatives from the industrial sections who have been trying to secure first place for the consideration of their wage and hours bill. Again it was only the splendid work of Mr. Jones that put the measure through.

The final test came just a few minutes ago when we were trying to pass a deficiency appropriation already passed by the Senate to provide \$65,000,000 for each of the next two years to pay not to exceed three cents per pound parity on the 1937-1938 cotton. We understand that this money was set aside for this purpose long ago but the President has hesitated to use it and had asked that Congress take this action. We understood that it will assure a cotton loan and parity payment similar to that of 1937. Its passage was abso-

lutely vital to the South. The Republicans and most of the Northern and many Western Democrats immediately began a bitter attack. It looked as if they were going to defeat us and deny the Southern Cotton Farmer any relief when Mr. Rayburn, the Majority Leader, from Bonham, Texas took the floor in favor of the appropriation. Mr. Jones of Amarillo, Texas followed with a most telling plea and finally the Speaker of the House, Mr. Bankhead of Alabama closed with an appeal that resulted in a vote of 199 to 129 for the measure. It is most unusual for the Majority Leader and the Speaker to take sides especially where it is not a strictly party fight but I feel sure that without their help today the South would have been sacrificed.

The past few days have been oppressingly hot here in Washington. So hot in fact that for three-straight days the Government Departments have dismissed their employees. The unpleasant weather combined with night sessions and a never ending string of controversial questions has not helped the temper of the Members but I have been surprised at the lack of serious friction. Now that adjournment has come, I will be exceedingly happy to get home to Central Texas. I am going to go to Detroit and drive home a Ford car that I traded for before moving to Washington last winter. For the past eight months I have been a-foot but I am afraid that it is still a little hot for

walking in Texas. I will, therefore, be on the road next week and will not send out any letter, nor do I expect to send out any regular reports until Congress convenes again. I shall, however, try to send out a few special items explaining particular legislative matters from time to time. I am leaving my Washington office open and my Secretary, Mr. Clarence Elwell of Waco and Eddy will be there to render every possible service to the people of the District.

BALLS— TOO MANY

(Editor's note: This article is published as a news item and represents the personal views of Mr. Ferguson only.)

Base Ball, Foot Ball, High Ball and Social Ball everywhere. Pick up the papers and on almost every other page we get the ball in some type or phase.

Whither are we drifting? It appears that the people are gone hog wild on some kind of a ball. If the papers were to cut out the ball page there would be but little left to please and amuse the public. On one full page appears some foot ball game with an audience of several thousand fans giving rapt attention. On another page is another vast audience giving enthusiastic acclaim to the feats of a noted base ball team.

On another page is an attractive advertisement of some big liquor concern urging the great virtue of its liquor as a superb decoction for high balls. And on page after page appears the clothing advertisement of the big stores of their offerings fine and super fine for social balls for ambitious dressers.

Balls to our right, balls to our left, balls everywhere of some kind that is now talking half the time and all the surplus money of over half the population of the country.

The question arises of where are we headed for and where are we going to? The consuming desire for a good time with some feature of a ball entertainment is diverting the minds of the old as well as the frivolous young. The gaiety of the people is everywhere and extravagance to support it is apparent on every hand.

If the figures were available, I am sure that they would show that half the people spend more for ball clothes than they do for everyday wear. A one thousand dollar fur coat will clothe the whole family for two or three years.

People spend more money for high balls than they do for butter and more for baseball than they do for bread; and many people spend more for foot ball than they do for hats and shoes. The ball mania is running the people nuts and the fever is growing higher.

Mental diversion to be sure is a good thing for all of us. But it looks like the ball craze has captured most of us and will sooner or later get all of us. If we just had only one ball disease, maybe we could survive it and pay the bill. But unfortunately for many of us the ball mania is catching and one afflicts us with the other once the epidemic lays hold of us.

If we become daffy on base ball, we soon find ourselves at the first edition of the foot ball season and a regular patron thereafter, and vice versa, if we get inoculated with foot ball we soon take on baseball as a side issue. And when we take on base ball and foot ball, we just have to have a high ball to enjoy either one. The same is true with the high-toned ladies who reveal in showing their ball clothes.

After the ball is over
After the break of day
After the dancers leaving
After the stars are gone,
Many the heart is breaking
If we could read them all
After the ball."

The Cold Germ will

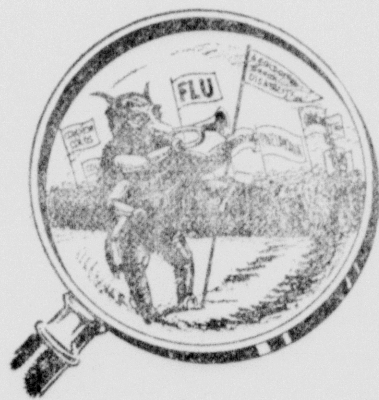

"bite you"

if you don't watch out

Too much praise cannot be given the formula of medical science that "it is better to keep well than to get well." Every effort should be made to prevent illness particularly during the treacherous months of winter.

Soon the common cold germ will wage its relentless attack to pave the way for such serious illnesses as bronchitis, sinus infections, tuberculosis and other health-wrecking diseases. Watch for that first "sniffle" . . . it's a warning that should not be overlooked.

For your health's sake, fight colds this winter with comfortable temperatures and adequate ventilation in every room of your home.

The cold germ is responsible for more than two hundred million illnesses each year. Any sudden change in temperature as you go from a warm room to a cold one makes you susceptible to "catching cold."

Common colds are dangerous. Don't gamble with them. If you should catch cold during the coming winter months, consult your family doctor before it has an opportunity to undermine your health.

Miss Virginia Burnett Married To Woodrow Finley

In a simple but impressive ceremony at the Marlow Presbyterian church, near Cameron, on Wednesday morning at 10 o'clock, Miss Virginia Kathryn Burnett became the bride of Woodrow Wilson Finley of Houston.

The ring ceremony was spoken by Rev. O. C. Acrey, pastor of the Presbyterian church, Cameron, before an altar of ferns, palms and baskets of purple and orchid asters.

Miss Annabell Woodum of Marlow sang, "I Love You Truly." At the strains of the Loengrin's Bridal Chorus, played by Miss Ida Byrd Mayfield of Cameron, the bride and groom entered together and took their place at the altar. Mendelssohn's Wedding March was played for the recessional.

The bride wore a modish traveling suit of green crepe with harmonizing accessories. She wore a dainty shoulder corsage of sweetheart rosebuds and lace fern. The bride is the daughter of Mr. and Mrs. T. F. Burnett of Marlow. She graduated from the Yoe high school in this city and later accepted a government position in Beaumont, being transferred from there to Houston where she was working at the time of her marriage. Mrs. Finley was born and reared at Marlow and has a host of friends at Marlow and in Cameron.

The bride groom is the son of Mrs. Laura Finley of Liberty. He is a graduate of the University of Texas, Austin, and is employed in the office of the Gulf Oil Company in Hankamer where he and Mrs. Finley will make their home after a honeymoon in Austin, San Antonio and other points.

The entertainment is to celebrate the Order in Texas and will also give local members an opportunity to celebrate completion of their new hall at Buckholts.

The Lodge at Buckholts was organized No. 15 in 1897. It has 140 members and is a fraternal insurance order. Of especial interest is the fact that the Grand Lodge offers 10 scholarships each year to deserving students. They are worth \$300 each.

Funds from the entertainment on Sunday will go into the treasury of the local lodge for building and benevolent purposes.

Officers of the lodges are: W. E. Kuzel, President; Ed. Posival, Vice President; J. S. Svetlik, Secretary; Ben Pybiral, financial secretary; L. A. Svetlik, treasurer.

WANTED COTTON PICKERS

We still need about one hundred cotton pickers, still paying Seventy Five Cents per hundred; have not paid more to any one; may have to when cotton gets thin or if some raises price will meet competitive prices. Am getting along pretty well, but have not taken a hand from my neighbors field and am only using less than a dozen out of Cameron, but sure am getting the drifters and hands from other towns, regardless of the Tin Money, Howlers and Cheerful Liars.

Less Monthly Discomfort

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

Cardui, praised by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.

BUSY SESSION FOR THE GRAND JURY

The grand jury which convenes on Monday, September 6th, for the term of district court will probably have a long session due to the many complaints pending.

Most of the cases pending are for burglary, it was said by District Attorney Emory B. Camp. Three murder cases are among the charges filed viz: Frank Sefcik, 81 year old farmer of Sand Grove for the murder of Charles Masser, 45; Othie Seaton of Cameron for the fatal shooting of Jack McCoy, negro; Dewitt Patterson, negro of Maysfield for the fatal stabbing of Edward Young, another negro.

Preacher Is Charged

Among the other most important cases are: Rev. J. L. McRea, Baptist minister of Rockdale, charged with swindling the Cameron Insurance Company of \$500; Mrs. Ina Catchings of Rockdale, charged with assault with intent to murder her son in law, Chon Esparza and Roy Hamby, charged with robbery by fire arms.

Weldon Winns, negro, of San Gabriel confessed to cotton seed stealing after being arrested Friday. Officers of this county previously arrested 14 negroes and one white man for the same offense.

Cattle Theft Probed

Several cases of cattle theft will be probed. The most recent case of Jr., charged with forging checks on forgery was that of Frank Poseval, Gus Gonten, Jr., of Edgeworth to Cheeves Bros. for \$6 and Oscar Patillo for \$10. Constable B. F. Bailey of Cameron had Poseval apprehended at Odem, where he was working under the name of R. J. Smith.

Commissioners Named

The jury commissioners appointed by District Judge W. G. Gillis have met and selected grand jurors and petit juries for the September term of court. The commissioners were: John B. Henderson and B. J. Matocha of Cameron and A. W. Rettig of Ben Arnold.

Cattle Theft Charges Filed Against Two Here

Rip Woods, white man and Andrew Swift, negro, both living in this county near Sugar Loaf mountain are charged with cattle theft and out under a \$500 bond each, awaiting the action of the September grand jury, it was said by Sheriff Kennedy.

The men are charged with stealing a calf from the Henderson and Black farm at Hanover on Saturday night, August 8, and taking it to Fort Worth and selling it. Sheriff Kennedy stated that the calf was sold in the negro's name, but the money turned over to the white man.

Drunk Charges Are Filed Against Two Bell County Men

W. J. Doane and W. D. Birchum of Temple were released from jail in Cameron Saturday morning, after both had made bond.

Doane is out under a \$500 bond charged with driving while intoxicated and \$100 for a drunken charge; and Birchum is under a \$100 bond for drunken charge, it was said by District Attorney Emory B. Camp.

Car In Ditch

Sheriff Kennedy arrested the men after they had turned over in a ditch near Bear Creek, two miles southwest of the city Friday afternoon. Deputy Sheriff Clarence McCall confiscated a quart of dry gin, unopened, and a half pint of whiskey, unopened, and one other bottle of whisky, opened and containing a small amount of liquor.

Hit Automobile

Officers reported the men ran into a car belonging to Bill Matyastik, parked on South Crockett street a short time before they were arrested. Charges were filed in the court of Justice of the Peace Womack Brashers here.

The car driven by Doane's had a U. S. License plate on it. Jailer Will Walston in searching Birchum and Doane as they were put in jail found a knife measuring about eight inches in length in Doane's shirt, officers said.

FARM CLUB
NOTES

"This butter is firm while mine today is melted" exclaimed one of the Gause Home Demonstration club members when she was shown the ventilated portion of Mrs. F. M. Hauptfleisch's pantry.

The inside end of the pantry has been divided from the rest by a solid partition. Large holes have been bored in the floor and in the shelves and an opening put in the ceiling. The floor and ceiling holes have been screened, thus keeping out dirt and insects while letting in a current of air. This air, being drawn from near the center of the house is cool and the holes allow free circulation. The temperature inside this portion of the pantry is considerably cooler than ordinary room temperature, and the warmer the day, the greater the difference. Mrs. Hauptfleisch reports that food in the ventilated pantry does not freeze in the winter.

Plans for the ventilator pantry can be obtained from the office of the County Home Demonstration Agent.

"I almost refused to be wardrobe demonstrator because there seemed to be no place in my room for a clothes closet," Mrs. H. W. Walker, wardrobe Demonstrator of the Gause Home Demonstration Club recently said.

"At the first visit of my Home

Strength During
MIDDLE LIFE

Strength is extra-important for women going through the change of life. Then the body needs the very best nourishment to fortify it against the changes that are taking place. In such cases, Cardui has proved helpful to many women. It increases the appetite and aids digestion, favoring more complete transformation of food into living tissue, resulting in improved nutrition and building up and strengthening of the whole system.

Demonstration Agent, we planned to move the door between the two bed rooms two feet, thus affording space to build closets in both bed rooms. My little girl who is clothing demonstrator in the Girls 4H club helped me move the door and build the closets. We have fitted these with rods, shelves, shoe rack and hat stands.

For 12 years my husband had hung his Sunday clothes on the wall and put his shoes under the bed. For \$3.15 we have storage space for all our clothes and bedding.

Our clothes will now be better kept and my work will be lighter because of this convenience for my family can help themselves better.

I keep records of all clothing costs and I find that by doing so the expenditures are more fairly divided between all the members of the family.

I can truthfully say that all this improvement is the result of my being a wardrobe demonstrator."

At an Achievement Event August 18, Mrs. Walker exhibited these clothes closets to club members and visitors. Patterns of the shoe rack were made for all visitors who wanted them.

Forrest Fire

James Ottmer, 23, son of Mr. and Mrs. B. H. Ottmer of Thorndale is in a serious condition in a hospital at Cody, Wyoming from burns received in a forest fire, near Cody.

Ottmer is the grand son of Mr. and Mrs. J. P. Moseley of Cameron. Mrs. Fred Worley, an aunt to Ottmer, reported on Tuesday that she had telephoned to Wyoming and the nurse reported that Ottmer was in a serious condition with one third of his body burned, more seriously about the face, neck arms and feet and unless complications set in within the next 72 hours he had a chance of recovery.

Ottmer was one of the CCC enrollees who aided in fighting the fire, which broke out about Friday, and which is reported to have burned over approximately 2000 acres of heavy woodland in the Absaroka mountains of northwest Wyoming.

We CUT YOUR HOME
ELECTRIC SERVICE RATES!

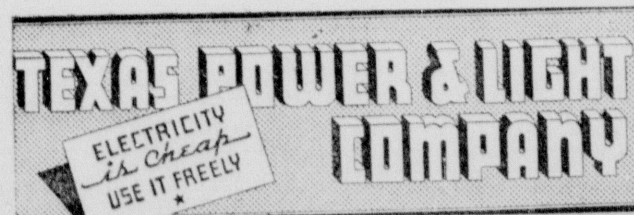

FOUR TIMES since 1927 we've cut your home service rates in Cameron . . . cut them until they're 39% lower than they were ten years ago.

Ten years ago you could light your home, use an electric iron and an electric sweeper . . . if you were careful . . . with 30 kilowatt hours of electric energy, for which you then paid \$3.70. Today you pay only \$2.25 for 30 kilowatt hours.

Because we have cut rates, and because of the greatly increased efficiency of lamp globes and all kinds of electric appliances, you are able to get far more service from the 30 kilowatt hours even though you pay 39% less than you paid for it in 1927. For instance, today you can use a radio, automatic iron, light your home, cook a few meals on an electric roaster, wash your clothes and clean your floors electrically, using only about 30 kilowatt hours per month!

The Texas Power & Light Company has made that possible for you because we have voluntarily cut your home service rates FOUR TIMES in ten years!

We're in the business of public service . . . and we know it. We can't permit ourselves to look at things just for today. We must look ahead . . . look ahead for you . . . keeping your good will . . . and, at the same time keeping this Company, your electric service company, sound and active both as a good citizen and a business institution of this city. You're getting more and better service from your electric service company than from any other single source on earth . . . all because of our voluntary rate cuts for you!

REV. T. G. MARBURGER KILLED NEAR TAYLOR

Rev. T. G. Marburger, former resident of Marlin and well known in this section, was instantly killed in a highway accident near Taylor Thursday afternoon, according to a message received here by C. E. Paul, a brother in law, late Thursday. Deceased was a brother of Mrs. Paul.

Rev. Marburger, an interdenominational preacher, had lived here and at Mart and had been preaching for the past 15 years or so. He lived in Marlin years ago and had been a frequent visitor here, his last visit being about a month ago.

In a telephone conversation with the Taylor Press Friday morning, it was stated that Marburger was killed instantly when the army truck on which he had caught a ride from Taylor toward Waco turned over when it struck a soft shoulder on a curve two miles north of Taylor on the Waco highway, around 3 p. m. Thursday.

Rev. Marburger had been in Taylor and vicinity for the past several days selling Bibles and had started back to Waco when he caught a ride on the truck, a unit of the 12th Field Artillery from Fort Sam Houston, according to Taylor reports.

Driver Is Hurt

Marburger was pinned under the heavy truck and his head and body were badly crushed. One other person, Theodore Hamilton, was badly injured in the accident, it being necessary to remove his left eye. The third man in the truck was less seriously injured.

The body was returned to Taylor where identification was established through papers on the body.

Brother Lives Here

Marburger is survived by the following brothers: Alfred of Cotulla, Paul of Cameron, Ewald of Santa Anna, Robert of LaGrange and Otto of Waelder and two sisters Mrs. A. B. Ruhman of Waco and Mrs. C. E. Paul of Marlin.

Mr. Paul left Thursday night for Taylor. The Pucker-Sloan undertaking company at Taylor had the body pending funeral arrangements.—Marlin Democrat.

The body was taken to Cistern in Fayette county on Friday where funeral services were held.

He was regarded as an accurate accountant and had been bookkeeper and manager for the Vogel Industries all during their existence here. He was secretary of the Sons of Hermann for 38 years.

The following children survive: Mrs. Thomas L. Alford, Minneapolis; Mrs. Arthur C. Gilman, Mojave, Cal.; Mrs. Hattie Goff, Los Angeles; R. J. Walter, Chilton; Mrs. C. A. Harnes, Frank A. Walter and Miss Antoinette Walter, San Antonio.

County Jurors Named For Term

The commissioners were: John T. O'Neill, Burlington; Harold Luckey of Rockdale and Clifton Jenness of Cameron.

Campaigns

(Continued from page 1)

Sam Houston, father of the Republic, opened his campaign for Governor more than a half century ago. But few of the pioneers who greeted the great Democrat in his first public utterance in that memorable campaign are now living to recount the event.

Spoke Under Tree

General Houston delivered this speech under a hugh, spreading oak tree near the present site of the Federal Building. This historic tree was blown down in the storm of 1900 that swept in from Galveston and the coast.

Among those now living here at the time when General Houston delivered his speech are T. G. Sampson, W. T. Hefley, John M. Tucker, Mrs. Thomas A. Pope and others.

Richard Coke Came

The next great political event was in the days of reconstruction when Senator Richard Coke and Richard Hubbard spoke in Cameron in their campaign for the governorship. During that time Hon. George Clark who later opposed Jim Hogg in the campaign for Governor, was serving as attorney general of Texas.

Sul Ross Here

Following this was the memorable campaign between Sul Ross and William J. Swain which was opened in Cameron with a joint debate between the candidates. Mr. Swain had served as comptroller and was almost universally supported by the

press of the state. This was the only joint debate of the campaign.

Hogg and Clark

Governor Hogg and Mr. Clark opened their campaign for Governor in a joint debate in the park which was used here this afternoon for the speaking of Mr. Bailey. This debate was perhaps the most thrilling ever held in Texas. On the following day they spoke at Cleburne and in the course of the addresses rival forces began rioting and fighting began with the result that the meeting was broken up and the platform shattered.

Bailey and Chilton

Horace Chilton was appointed United States Senator by Governor Hogg opened his campaign for election to the second term in Cameron to more than 5000 people. Mr. Chilton was opposed in that campaign by Joseph Weldon Bailey who as a congressman had attracted nation wide attention.

Senator Bailey also opened his campaign in Cameron for the United States Senate in that year after Mr. Chilton had spoken here. Mr. Chilton withdrew from the race and Mr. Bailey was elected without opposition.

Bailey Speech Home Coming

The speech of Senator Bailey here today was in the nature of a home coming as it was on this very spot that he first offered for the United States Senate.

Mr. Bailey's next speech in Cameron was in 1908 when he was running for delegate at large from Texas to the National Democratic Conven-

tion which met in Denver, Colorado that year. He was opposed by Cone Johnson of Tyler.

Small American flags missing from veterans' graves at Port Huron, Mich., were found to have been used by chipmunks to line their nests.

After being on the dole two years, James Hawtrey of Hull, Eng., found his wife had a bank account and paid back all he had received.

taining good looks and repelling disease. Rheumatism, stomach trouble, kidney disturbances and heart disease are often directly traceable to infected teeth that could have been preserved by regular dental supervision in early life.

Dental infections are acute, sub-acute and chronic in character, the same authority explains. The acute, while probably most painful, is the least dangerous because it is seldom overlooked.

The sub-acute, and more often the chronic forms are considered most dangerous. Their symptoms are often hidden deeply beneath the surface and disclosed only by the X-ray.

A clean mouth, with sound teeth, is a bulwark against disease. Proper care of the teeth from babyhood is essential to preservation of good health for the years after forty.

Improper exercising is a very common cause of impaired health during the hot weather months, according to Dr. Robert A. Fraser, chief medical director of a leading life insurance company, who recently said:

"The best time to stop exercising is before you have had enough. Leave the golf course, tennis court or swimming pool with the feeling that you would like to stay longer, and you can be sure that you have not overdone. This rule applies to all forms of recreation or exercises, and should be followed by people who are on their vacation as well as those who are working hours."

The important thing to avoid, in the doctor's opinion, is the tendency to turn the play period into an endurance contest. The grim-faced individual intent on another eighteen holes of golf; the perspiration soaked half exhausted tennis player determined to finish an extra set; performances like these destroy the very purpose of exercise, which is to build and tone the muscles and which cannot be accomplished by over-doing.

"Those who go on vacation," Dr. Fraser stated, "should shift gradually from a sedentary routine to one of active exercise. The heart and muscles are not prepared for the sudden strain of stepping from a quiet, inactive existence into one that calls for thirty-six holes of golf or five sets of tennis. Such a change is foolish and dangerous."

Toast of New York

presses overtime to issue more securities. Colorful and flamboyant, his name is repeatedly on the front pages of the daily newspapers and his lavish spending is the eighth wonder of the period. His end is equally as sensational as his rise.

Fresh from her laurels in "Come and Get It," in which she also played opposite Arnold, Frances Farmer has the Josie Mansfield role. Cary Grant zooming to new star honors, is cast as Jim Fisk's pal "Dandy" Boyd, who finally wins Josie from him. Jack Oakie, as another crony of the meteoric financier, has a side-splitting comedy role. Rare humor, as well as spectacular drama, pervades the action.

Heralded as one of the new singing and dancing sensations of the screen, Thelma Leeds, former radio and night club star, makes her film debut in the role of Fleurique, a peppery French soubrette. Donald Meek plays the highly important Daniel Drew, favorite foe of Fisk. Clarence Kolb, of the noted stage team, Kolb and Dill, is cast as Commodore Vanderbilt, and others in the exceptionally large cast include Paul Guilfoyle, Douglas Woods and George Irving.

Rowland V. Lee directed "The Toast of New York," produced by Edward Small for RKO Radio.
